Rimless Technology Hygienic solutions for every bathroom

Rimless toilets offer a hygienic solution, the elimination of the rim discourages unwanted germs which can often breed underneath standard toilet rims.

Low water consumption and optimum flushing performance complement the hygienic benefits of a smooth, corner-free design.

Easier to clean
Smooth interior walls and no rims.

Optimal flushing
Rimless technology flushes the water around the pan providing a thorough flush.

Larger clean area
The design of the bowl allows water to flow upwards, cleaning the entire surface.

Hygienic solution
Uniform distribution of water washes the entire surface of the bowl.

Touchless innovation

EM1 / Touchless dual flush universal mechanism

Touchless = Hygiene

The flush activates without contact thanks to an integrated infrared sensor, avoiding the spreading of viruses and the growth of bacteria.

Quick install

Quick assembly and activation.

Compatible WCs

Compatible with most cisterns with a $\varnothing 40\text{mm}$ cistern hole and an external cistern height (with cistern lid) of 360-390mm.

The dual flush valve body has WRAS approval.

Universal
Compatible with most cisterns with a $\varnothing 40\text{mm}$ cistern hole and an external cistern height (with cistern lid) of 360-390mm.

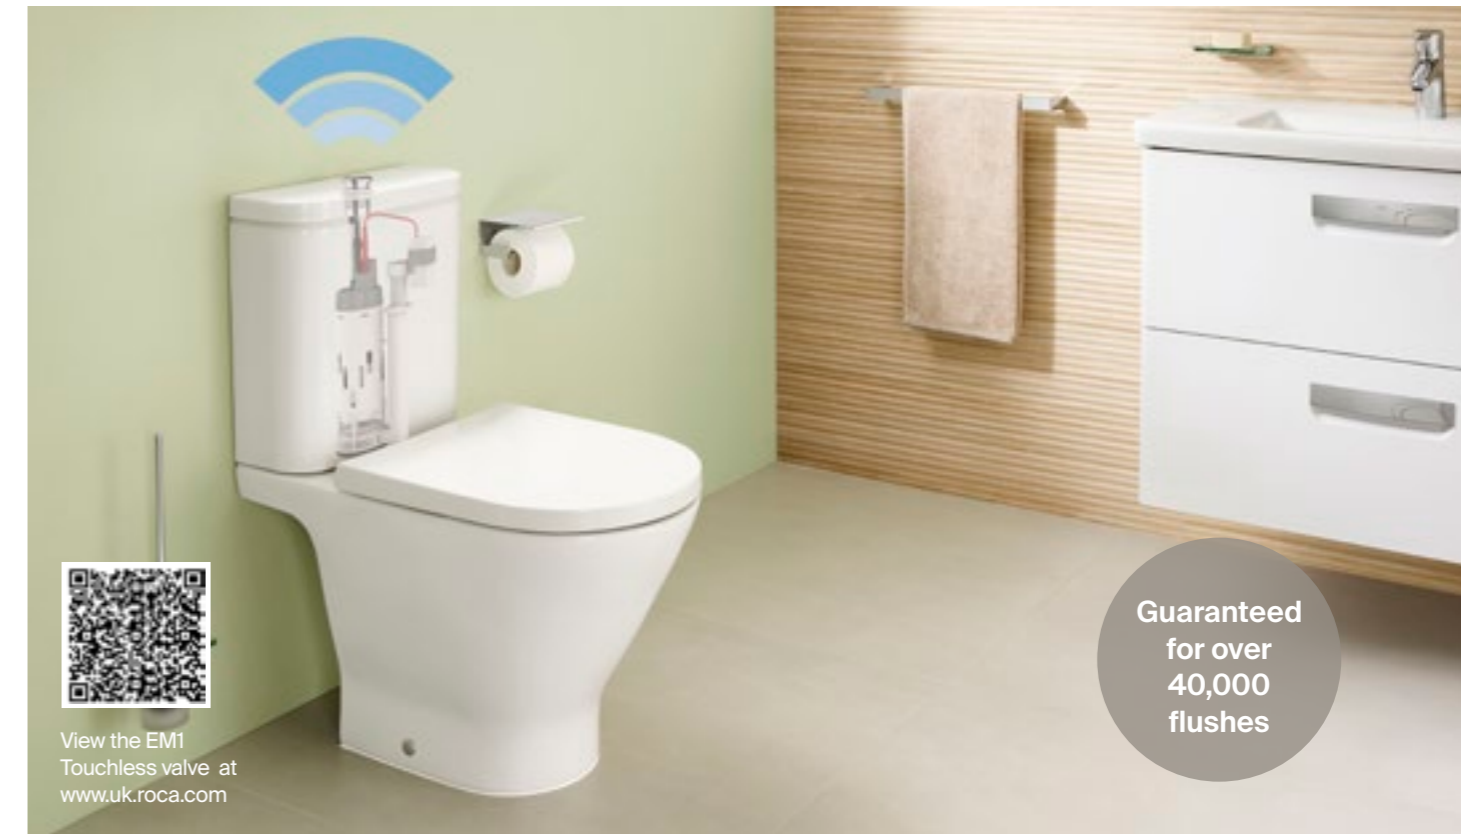

Adjustable dual flush
Full and half flush volumes to be adjusted between 2 and 6 litres.

No electrical installation
It works on 4 AA batteries (not included) that guarantee more than 40,000 flushes. It also works manually if the batteries run out.

Touchless dual flush valve for close-coupled toilets

The EM1 Touchless dual flush valve Zero contact. Maximum hygiene.

Roca's Touchless dual flush valve provides an extra layer of safety within the bathroom. Featuring an infrared sensor the valve allows users to activate the flush of the toilet using a simple movement without the need for contact, avoiding the spreading of viruses and the growth of bacteria.

View the EM1 Touchless valve at www.uk.roca.com

User friendly

Just a simple wave of the hand. EM1 recognises the required flush (full or half flush volumes).

Benefits of Stonex®, Roca's innovative composite resin material that combines safety, hygiene and aesthetics

Anti-slip

The textured surface has been specially engineered to adhere to the highest anti-slip standards (Class C*) increasing safety for all users.

*According to DIN 51097 norm

Adaptable

Easily adaptable to any kind of spaces, thanks to it's cut-to-size options.

Extra slim

The exclusive formulation of Stonex® enables the production of extra slim pieces that can be installed at floor level, providing seamless integration, removing barriers and allowing easy access to the shower.

Resistant

Stonex® is extremely resistant to wear and tear, discoloration, chemical agents and UV light.

Hygienic

Compliant with the most demanding hygienic standards, impeding the spread of microorganisms on the surface.

*Certified by Applus: UNE-EN ISO 846

Easy cleaning

The surface is designed for stress-free maintenance and can be easily cleaned with soap and water.
