BRISTAN

New Designs. New Finishes.

Bristan has expanded its portfolio with the introduction of three new tap ranges, launching in September 2023.

Introducing Tangram, Saffron, Appeal; three new tap ranges in trend-led finishes, coordinating showers and matching accessories. Making Bristan the easy choice for bathroom refurbishment.

BRISTAN

Our Showroom Offer

To sit alongside Tangram, Saffron, Appeal; we have also introduced Hourglass in chrome and black to sit within this trend-led finishes, coordinating showers and matching accessories proposition for merchants with a showroom.

Unlike other brands, our basin mixers combine effortless style with solid engineering and the reassurance of Britain's number one brand in taps and showers.

Range In Detail

As with all our products, the new designs have been rigorously tested to comply to quality standards and are supported by our exceptional guarantees, award-winning customer service, and with a full suite of spares. They are also available with our industry-leading next day delivery service promise.

Showroom Ranges

Features and Benefits

A succinct range of coordinated taps, showers and accessories in customer inspired, trend-led designs and finishes.

Taps:

- You really can count on Bristan taps as they are designed, engineered and tested to last.
- All the new taps come under a 10 year guarantee for peace of mind (3 year guarantee on the finish).
- All the taps in our showroom collection have Eco Start technology meaning hot water is only activated when the tap lever is moved from the central position, so the boiler is not unnecessarily fired up.
- Basin mixers: all in one box - includes flexible tails and clicker waste so nothing to buy separately.
- Long-life ceramic cartridge for added durability and ease of use.
- Quality tested and assured.
- Excellent spares availability
- Suitable for high and low pressure water systems.

Showroom Ranges

Features and Benefits

A succinct range of coordinated taps, showers and accessories in customer inspired, trend-led designs and finishes.

Showers:

- Our concealed shower valves offer sleek design and smart features, without compromising on size.
- Shower valve will fit into a cavity space as small as 35mm for hassle-free installation
- Adjustable concealing plate to allow for wall and tiles for the perfect fit with metal back plate and handles for added durability
- Complete shower packs so nothing to buy separately
- Available in one outlet; and two outlet diverter options allow you to easily switch between drench head and handset
- Rub clean nozzles so limescale and debris build-up is quickly and easily removed
- 15mm inlet connections to fit UK standard pipework
- Cartridge can be accessed from the front for easy servicing
- Thermostatic cartridge with preset temperature safety stop for family-safe showering
- 5 year parts guarantee and 1 year labour

Eco Start

Taking the Heat out of Energy Bills

Eco Starts lets you choose when hot water is required, saving money on your energy bill, and reducing your carbon footprint.

- Eco Start is NOW available on the NEW Saffron, Tangram and Appeal basin mixers
- Set with cold water in the default start position, with the boiler not being engaged.
- Hot water is only activated when the tap is moved from the central position (towards the red VBL marking). The boiler is then engaged.
- The opening of the tap in the cold position stops unnecessary engagement of the boiler, saving consumers energy and cost and making their home eco-friendlier.
- Calculations show consumers could save up to 10% energy* usage on the Eco-Start tap.

*UWL (water label) estimates approx. saving of £80 per annum per ECO start tap (based on average household use, current energy costs and using a combi-boiler).

Taking the Heat out of Energy Bills

The Perfect Finish

A Mark Of Quality

All our new products feature our premium visual brand language.

Beautiful chrome, matte black coatings and brushed brass finishes adorned with crisp pad printed markings to enhance our premium finishes.

Perfectly communicating Bristan's intuitive, user-friendly visual brand language.

Using commercial grade processes to ensure a lasting, quality finish every time.

Lasting Quality

The process used to manufacture the black finish is **EPD (Electrophoretic Deposition)**. Whereby the black coating is directly coated to the brass, for a harder-wearing finish. With no additional plating to flake or tarnish, every product in the range has been independently tested to ensure the highest finish standards.

Rigorously tested to the highest standards, for a premium finish we're confident will stand the test of time.

- Stronger adhesion with no flaking over time.
- Stands up to everyday use and won't degrade through mechanical wear and tear.
- Corrosion and stain resistant.

Bristan give a 3 year warranty on all 'special' finishes (i.e. everything except chrome)

Lasting Quality

The process used to manufacture our brushed brass finish is **PVD (Physical Vapour Deposition)**. PVD, involves physically depositing atoms, ions or molecules of a coating material directly onto the brass. The coatings are not just metal layers, they are compound materials which are deposited atom by atom, forming a thin, bonded metal surface layer which is extremely durable.

Rigorously tested to the highest standards, for a premium finish we're confident will stand the test of time.

- Hard surface (2nd only to Diamond) so extremely wear resistance.
- Stands up to everyday use and won't degrade through mechanical wear and tear or tarnishing.
- Corrosion and chemical resistant providing a uniform standard of finish.

Bristan give a 3 year warranty on all 'special' finishes (i.e. everything except chrome)

BRISTAN

Guarantee

Guarantee

Bristan products offer durable styles and trend-inspired designs, with reliable guarantees, Bristan is always the easy choice for taps and showers you can trust to deliver.

The NEW Bristan products feature the same assurance you'd expect from the UK's number 1 manufacturer. So, you can buy with confidence.

- Bathroom Taps - 10 years (covers parts, no labour).
- Mixer Shower Valves, Accessories and Wastes - 5 years (covers parts, no labour).
- 3 year warranty on all 'special' finishes.
